17) You now have a KAZANO coin purse

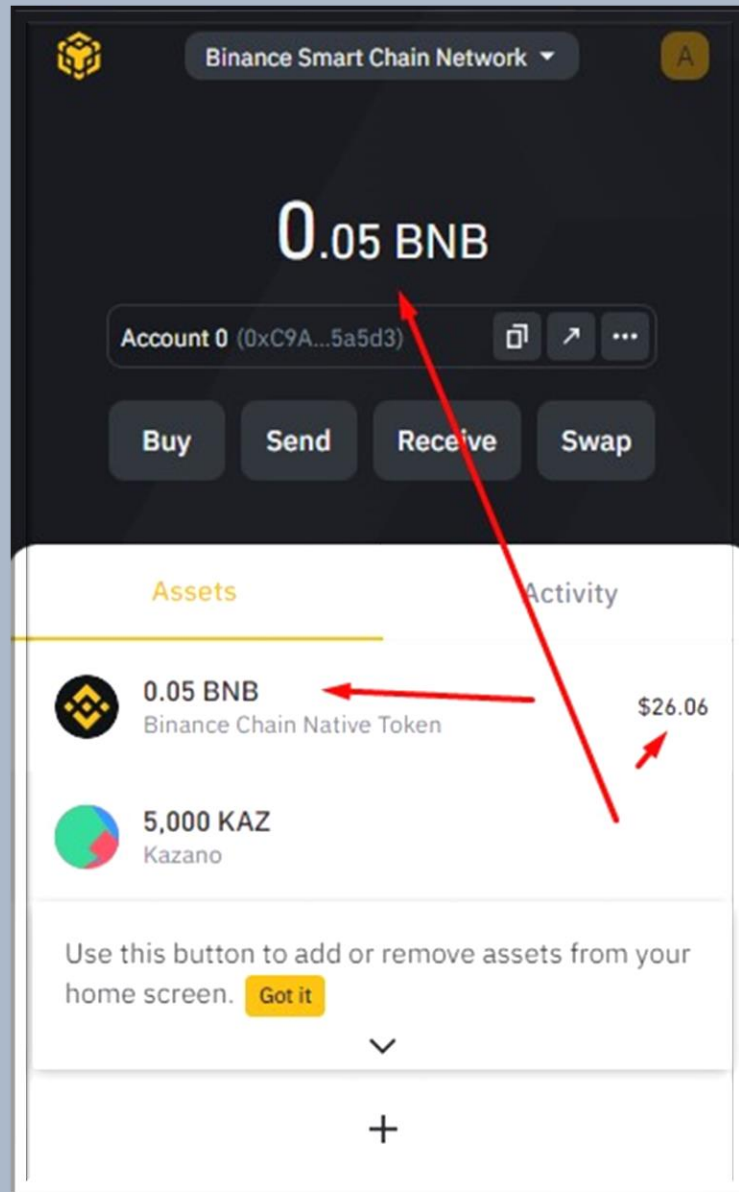

18) To send the AZANO currency to another wallet, or to the stock exchange - you need to have some BNB currency for a commission,

Go to the main wallet address and load or property (via credit card) BNB currency

19) You now have in your wallet both KAZANO coins and BNB coins, you can send your KAZANO coins anywhere

Congratulations - your KAZNO coins will now be transferred to your private wallet

You can now send them to another wallet, buyer, or stock exchange, or to any platform that allows - trading or exchanging KAZANO currencies

Some important notes

1 -Sending to stock exchanges will be possible only after the official issuance date, and only to the stock exchanges that allow trading in the KAZANO currency, details of which stock exchanges can be used will appear in the guides - close to the official issuance date

2 -Receiving the coins for the first time from the back office to the private wallet can take several days, until he receives the approval of the Accounting Department and the release of the deposit, after which when the coins are in a private wallet transferring the KAZANO coins from wallet to wallet takes a few seconds

3 -Attention - sending coins from the wallet to any other address (other wallet or currency exchange platform) requires a commission - the commission is paid in the BNB currency, you need to have some BNB in the wallet otherwise the transaction will not be approved

4- BNB coins can be purchased on any platform - and on the binance stock exchange using a credit card
