

KAZANO

KAZANO

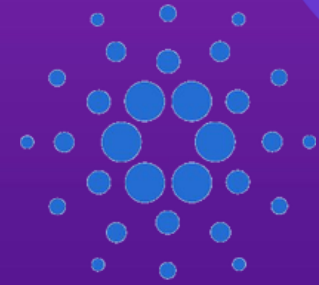

KAZANO

KAZANO - The most coveted cartographic
currency in the world

Project KAZANO

Pre-sale of the KAZANO
digital currency

The Digital Currency of the
World of Competitions, Gamers,
Casinos, and the Internet - Pre-
Issue Pre-sale

Pre-Sale - Earn the Big Rise Before Everyone Else

What is the KAZANO Currency (KAZ)

- ✓ Advanced digital currency - the third generation of the world of cryptocurrencies
- ✓ Based on the Cardano blockchain protocol – ADA
- ✓ Currency packages (token) can be purchased before the issue with a high annual interest rate in advance

KAZANO

KAZANO

What is a pre-purchase

Pre-purchase - pre-issue

Means - to purchase packages of the currency

Before it is issued and goes public. The value of the currency at an early purchase is much lower than its value after the issue and it constantly increases according to the amount of its purchases

After the purchase - the value of the currency increases all the time + annual interest rate

The realization of the profits is after the issue - or in an early resale before the issue

KAZANO

Amazing connection of dozens of businesses, especially from the Internet, competitions, gaming and casino ₿ that the coin will be used by them

KAZANO

Pre-purchase KAZANO

Increase in value - annual
interest - a fixed supplement

01

**Pre-purchase
KAZ currency value increases
constantly in the period of pre-
sale - pre-issue according to
the number of packages
purchased and the business
owners who join the
community that uses KAZANO**

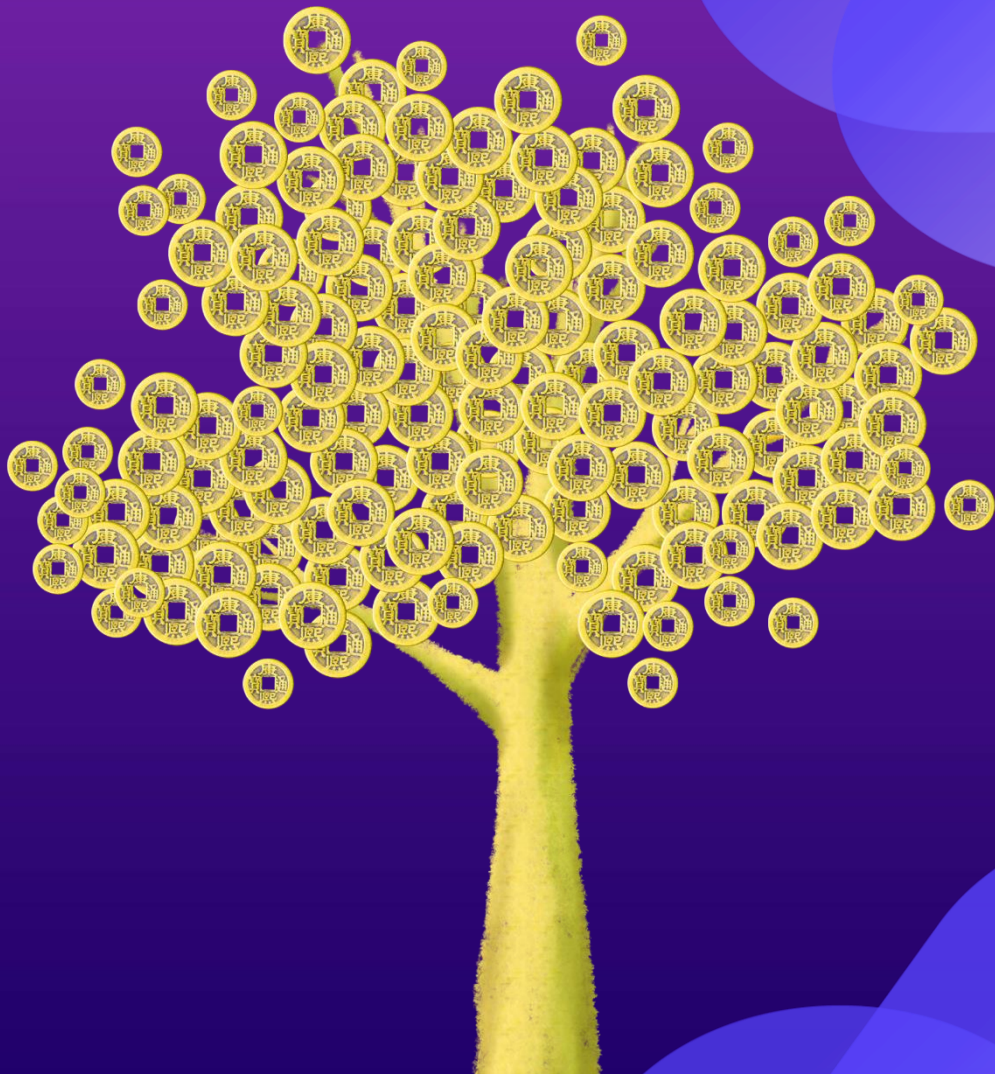

02

Annual interest

The currency packages you purchased are linked to a fixed annual interest rate plan on a daily basis - until the issue - the earlier you purchase packages and the larger the package, the more KAZ coins you will have at the end. (This is in addition to the increase in the value of the currency)

03

Regular addition

The currency packs you purchased - have a fixed 15% increase in the number of coins you have every 90 days. This supplement is available to all buyers and currency holders before the IPO as a reward for developing the KAZANO community around the world - the earlier you purchase and the more six packages you have, the more you will earn (This is in addition to the increase in the value of the currency)

KAZANO
