currency exchange

A better option - to wait for a purchase/buy order for someone to give and then give a sell order for my coins at the same price and amount as what he is asking for - in this way the exchange is immediate

withdraw

Now we will withdraw the funds we exchanged in exchange for KAZ currency (dollars or any other currency) - out (to our private wallet)

withdraw

It is important to know - in indoeX you can also exchange currencies for non-crypto currency (such as dollars or euros), and make deposits with a credit card, and withdrawals in dollars or euros using perfectmoney

withdraw

When requesting a withdrawal - we will be asked to add an additional layer of protection, or an additional withdrawal password, or a code in the Google authenticator application - available on a smart phone or as an extension to the Chrome browser authenticator.cc

When requesting a withdrawal - you must give a wallet address that corresponds to the type of currency you are withdrawing, and pay attention to the type of network you are using

Tips

For your transaction security, please complete the following security verification.

- 1.You Must enable "Google 2FA Code Verification".; **Set Now**
- 2.Set Secondary Pin; **Set Now**
